Is there a way to really know which choice is best?

Direction: Discernment for the Decisions of Your Life
Interview Question

1. Why did you write *Direction*?
2. What makes *Direction* different than all the other 'God's will' books out there?
3. If we are to pray according to God's will, is there a way to know what that is so we can pray accordingly?
4. If God is in control of everything, why does He allow suffering?
5. You've created a six-question process for spiritual discernment, tell us about it?
6. You say that when we know God's ways, we'll know our way, What does that mean?
7. In your book you share the very personal story of your journey through suffering while following the 'God's will' plan that most of us are familiar with. Can you share a little of that story, and how God spoke to you while in that messy situation giving you the foundation for this book?
8. You are a gifted storyteller, is there a story you can leave our audience with that holds a nugget of wisdom for finding *Direction* in God's way?
